We work in close partnership with our clients to offer a services that sets new standard in corporate event management with our clients need always at the forefront of our mind. is passionate, dedicated, and fun when it comes to staging event.

Our Mission

To provide Organizations with information on technology, expertise on a particular area of operations and provide insights they need for sustain ability, growth and expansion and valuable competitive advantage for their professional and personal growth. RI India endeavors to enlarge the group of knowledge sharing by exchange and making it a best practice by way of Innovations, Information, Intelligence.

Our History

A company wholly owned by its founding Directors, Reliability Inc remains independent from all suppliers, consultancies and other organizations providing clients information free of vested interests. Today what we have achieved proves that clients have actively sought business intelligence we provided them. With our very first program on World class maintenance this journey is on its way to achieve excellence in intelligence product we deliver. With a strong national presence we are spreading our good works in Asia Pacific region with a global touch.

About Us

RELIABILITY INC is committed to provide its client with cutting edge information on business and technology practices for their personal fulfillment and organization's growth. We provide a platform to industry experts and decision makers to exchange their views on a particular issue that they can use for strategic to practical purposes. We deliver thought provoking, unbiased and research oriented business intelligence product through optimum mix of Conferences, workshops, exhibitions and In-house training programs. In this fashion we also provide our clients a fastest way to know business information in an enjoyable milieu, a chance to know and network with business community and best way to meet suppliers that can help you en-route.

Our Vision

We enable our people to know the latest technology and knowledge which helps them develop the best practices and encourage in building a right industry trend and keep to Global Standards. This is done by varied workshops, Conferences, Forums, In-house training and corporate tailor made programs.

Our Approach

We embark on 3P principle when it comes to our intelligence products we deliver through Workshops, Conferences and In-house Workshops

- Product Improvement
- Process Improvement
- Performance Improvement

For product improvement we put in efforts to improvise and sharpen our research and comprehensive studies we conduct on a topic.

For process improvement we actively involve opinion leaders from cross-section of industries and speakers for our products to incorporate their ideas and views on subject.

For performance improvement we encourage our people to see things differently and do things differently.
